

Name: \_\_\_\_\_

You are going for a walk, starting at Corryville Catholic Elementary. First you walk to Nippert Stadium, which is  $\frac{1}{3}$  mile away. Then, you walk to Toppers Pizza, which is  $\frac{3}{10}$  mile away. Then from Toppers you walk back to Corryville Catholic, which is  $\frac{2}{5}$  mile away.

If you estimate the total distance walked, is it closer to 1 mile, 1  $\frac{1}{2}$  miles, or 2 miles? Justify your answer with words or pictures.
